

# Memorandum

---

August 5<sup>th</sup>, 2020

**To:** Shelly Bell, Director Lively Technical College

**From:** Carl Green, E.H. & S. Coordinator

A handwritten signature in black ink, appearing to be 'C. Green', written over the printed name.

**Reference:** AHERA Management Plan Notification

The Environmental Protection Agency (EPA) requires that each year that district workers and building occupants receive notification of the availability of Management Plans for asbestos materials identified in each school. Pursuant to Section 763.93(e)(12)(g)(4), this notice shall be dated and identified by school/facility affiliation.

Electronic versions of online newsletters are acceptable. A copy of the text for this notice is on the following page. Please issue the notice and include a copy of the notice in your Asbestos Management Plan.

If you have any questions please contact me at 617-1780.

*"No person shall on the basis of gender, marital status, sexual orientation, race, religion, national origin, age, color, disability, military status or genetic information be denied employment, receipt of services, access to or participation in school activities or programs if qualified to receive such services, or otherwise be discriminated against or placed in a hostile environment in any educational program or activity including those receiving federal financial assistance, except as provided by law."*

## Asbestos Hazard Emergency Act (AHERA) Notification

The Environmental Protection Agency requires each year that district workers and building occupants receive notification of the availability of Management Plans for asbestos materials identified in each school.

This notice serves to inform that all inspections for Lively Technical College have been completed and a Management Plan describing the results of the inspection and the action plan to control any asbestos found during the inspection, where applicable is available.

A copy of this plan is located in the administrative office of this school and at the Leon County Schools Code Enforcement Compliance Department. This management plan is available for review upon request.

The three-year re-inspection required by AHERA was performed in May 2020. The next three-year re-inspection is due to be conducted in 2023.

Any questions regarding asbestos removal projects or other related issues should be addressed to:

Carl Green
